Aiken County Government

September 12, 2007

Mr. Todd Escaravage
President
NEO Corporation
289 Silkwood Drive
Canton, NC 28716

Dear Todd,

I want to thank you for the excellent job which NEO did for Aiken County in demolishing the old Seminole Mill in Clearwater, SC. Even though there was more asbestos present than anyone imagined, you worked with us to keep the costs down and finish the project before our DHEC imposed deadline. The site was cleaned up and all materials removed very quickly. I especially want to thank your staff – James Staley and Jack Watts – for their professionalism and communication skills. They were very polite, knowledgeable, and helpful in all their dealings with county staff and our consultant.

I hope we will be able to work with NEO again in other cleanup projects.

Sincerely,

Joan Wilson Donnelly
Assistant County Administrator
